---

## Objective

Motivated BCA graduate with hands-on experience in web development and programming. Proficient in both front-end and back-end technologies, seeking to leverage my skills in a challenging role that fosters growth and innovation.

---

## Experience

- Ainwik Infotech, Greater Noida** Jan 2025 - Present  
Full Stack Intern  
Utilized HTML, CSS, and JavaScript to create 10+ responsive landing pages for both company and client. Mentored 2 new junior front-end developers on team in expanding JavaScript and React skillset. Reduced average valuation review time by 46%, and saved service providers an average of 84% due to click-fee reductions.  
Participated in the initial wave of developers learning and implementing the React.JS library
- S.O. Infotech Pvt Ltd, Noida** Jun 2024 - Nov 2024  
Full Stack Intern  
Worked with design, product, and back-end teams to create 2 web products.  
Led intern team of 5 persons to create GitHub pages, which allows all new and existing customers to have their repositories hosted.  
Reduced average valuation review time by 46%, and saved service providers an average of 84% due to click-fee reductions.  
Worked with Quality Assurance to get new pages/products tested, and addressed any issues.

---

## Skills

- HTML, CSS, Java Script, BootStarp, React Js, Node Js, Express, SQL, MongoDB, Core Java, Git / GitHub, Excel

---

## Projects

- E-commerce Website**  
I developed a fully functional e-commerce website using HTML, CSS, JavaScript, React.js, and Node.js to provide a seamless online shopping experience. The site features a responsive design that allows users to browse products and make purchases on any device. With React.js, I implemented dynamic components for real-time updates and enhanced interactivity. The back-end, powered by Node.js, manages server-side operations, including user authentication. This project showcases my technical skills and my ability to create a robust online marketplace tailored to user needs.
- Portfolio Website**  
I developed a personal portfolio website using HTML, CSS, JavaScript, and React.js to showcase my skills, projects, and professional experiences. This dynamic and responsive site serves as a digital resume, allowing potential employers and clients to easily navigate and explore my work. The website features interactive components created with React.js, such as smooth navigation and engaging animations, which captivate visitors. A dedicated project showcase highlights my key work, complete with descriptions and links to live demos and GitHub repositories. Additionally, I integrated a user-friendly contact form to facilitate inquiries and collaboration.
